

# FORM

## Project Choice Board

**Instructions:** pick one of the options presented below and complete by the due date given in class. Remember it's all about *your* level of skill, creativity, craftsmanship and effort that are the Keys to Success. Check class website for other requirements.

1.

Create a Zentangle paper form— recommend googling templates for paper forms.

2.

Create 4-9 paper forms and put them together to make something!

3.

Make a Sculpture inspired by the Tiki Culture or or Northwest Native Cultures (were the Totem Poll came from). Google what they are and how to make them— bonus point for creative use of media.

4.

Set up a still life that focuses on basic geometric forms, then do your best to render it using contour line drawing— (save shading it for a Value project later).

5.

Create a blanket/pillow fort! Then take pictures of it , create drawings of it or feature it in a video like YouTube's "The Richest" Ps: google "Epic Blanket Forts"— you won't regret it. Focus on thinking of space as a form!

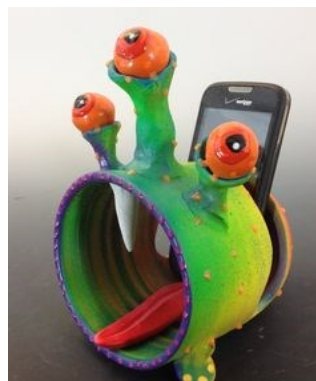

7.

Make your own Medical or Dust Mask  
If you want to help out your community just Google for how to make (sewing or no-sewing) and info on how you can donate them to your local medical community for the 2020 Covid-19 outbreak

8.

Make a Phone Amplifier out of found objects— google what it is and how to make one if you want to learn more.

9.

Google what "Functional Forms" are and then make one of your own! Make sure you tell me what specific "function" it is supposed to be serving. The example below is a "Yarn Bowl"
