

Designing MY Cup

Plan of Action (DEVELOPING)

Name:

Date:

Period

After reading the Creative Process Handout, apply what you've learned to design a footed cup with a handle. This cup needs to represent you in some way. What "way" that is, is totally up to you. It can be a functional or non-functional cup but does need to meet the requirements for being fired. Only rule for this worksheet: fill all the space! Goal is many ideas so write small and make drawings fill the space.

Brainstorming

Lists, word webs, freewriting, etc.

Research

Source Images, Information relating to topic, etc.

Sketches

Develop 2 totally different designs for your cup. One way to do it is to start by designing the individual parts, then put those parts together in different ways. Remember your ideas are what's important, do your best with the drawings but don't stress if they look a little goofy.

Cup Parts

Mouths	
Bodies	
Handles	
Feet
